

ENRICHED AIR DIVER SPECIALTY

The PADI Enriched Air Diver course is PADI's most popular specialty scuba course. Why? Because scuba diving with enriched air nitrox gives you more no-decompression time, especially on repetitive scuba dives. If staying down longer and getting back in the water sooner sounds appealing, then don't hesitate to become an enriched air diver.

Who should take this course?

- Be at least 12 years of age or older.
- Have a PADI Open Water Diver certification (or have a qualifying certification from another organization).

What will I learn?

- Discuss managing oxygen exposure.
- Practice analyzing oxygen content in your scuba tank.
- Set your dive computer for diving with enriched air nitrox.

What will I need?

- Basic scuba gear, including a dive computer.
- All PADI required course materials.
